

Refrigerant Recovery Equipment for Purging

Most of Air In Chemical Factory Process

- Fits for 500HP~2000HP In the refrigerating process , the moisture and air removed function.

Specifications

Model No.	CH-RPG-5225
Refrigerant	for R-22 (or R-134a)
Main compressor horsepower	Open Type , 20M ³ /H , 4poles MOTOR : 5.5KW , d ₂ G ₄
Booster compressor horsepower	3.7KW , d ₂ G ₄ , 4poles
Condenser	Air-Cooling
Power source	12KW
Purge design	Low temperature automatic control
Recovery mode	High-Pressured gas state
Condensing fan	3Φx220Vx60HZ , 1HP
Oil level controller	Float position Auto-Controller
Dimensions	1750 ^L x1300 ^W x1510 ^H mm (LxWxH)
Weigh	680 KG
