

## **FILTER-TRAIN OF SF<sub>6</sub> RECYCLING SYSTEMS**

**Model No. CHSF-DRF-09DT**

Moisture Control For Industrial Process

Power Input : 1Φx230Vx50/60HZ , 0.5KW

- ★ Ensure High purity value of SF<sub>6</sub> by pass the gas through desiccant and molecular sieve filters.
- ★ Two way Pre-Filter Design and element Change-Over very quickly.
- ★ Ensure the dew point of SF<sub>6</sub> in recycling process below -40°C easily.

- ★ Sample line with isolate valve, for purity analyzing at each section.

Replacement Filter Unit.

Replacement **CHIEF** DRF Element.
